

Final Supplemental Environmental Impact Statement on Management of Habitat for Late Successional and Old Growth Forest Related Species Within the Range of the Northern Spotted Owl and its Record of Decision (Interagency, 1994). Closure is for an indefinite period (15 years or longer) beginning on or about 1 June, 1995, when roads will have barriers or gates installed. Closures may be reversed by the BLM. Acceptable reasons for reopening include the following: fire (prescribed or suppression), emergency, rescue, forestry management on lands administered by a private party (including but not limited to thinning, fertilization, stand exams, reforestation and harvesting activities on private lands and as authorized by the Area Manager on BLM administered lands), salvage sales on BLM administered lands (authorized by the Area Manager or their agent on a case-by-case basis), small forest products sales on BLM administered lands (authorized by the Area Manager or their agent on a case-by-case basis) and wildlife/fisheries monitoring and research. *Recreational use of motor vehicles by all parties within the closed areas is prohibited.* This does not affect non motorized forms of travel. The reason for this order is to implement the Northwest Forest Plan as it relates to road density management and is designed primarily to enhance big game habitat, reduce sedimentation, and reduce maintenance costs.

Copies of the environmental assessment for this proposal and maps of the roads affected are available from the Coos Bay District office, at the address below.

All persons authorized to enforce state game laws may enforce this closure. Oregon State Police and the Coos County Sheriff's Department are hereby authorized to enforce state and federal laws and regulations on federal properties affected in this notice.

This closure order is in accordance with the provisions of Pub. L. 93-452, the Sikes Act (88 Stat. 1369), (16 U.S.C. 670 et. seq.) and Pub. L. 94-579, the Federal Land Policy and Management Act of 1976 (90 stat. 2743), (43 U.S.C. 1701), 43 CFR, Subpart 8364 and BLM Manual Handbook, State Office—Oregon H-2812-1—Logging Road Right-of-way.

Any person who fails to comply with the provisions of this order may be subject to penalties outlined in 43 CFR 8360.0-7 or as ordered through the Oregon judicial system.

The following is a list of road closures identified by this order, by resource area and road number. The location of the

gate or barrier will be at or near the beginning of each road.

Umpqua Resource Area (Paradise Creek Watershed)

and the un-numbered spur roads in T. 29 S., R.10 W. within Sections: 2, 3, 11, 15, 16, 21, and 23, Will. Mer.

ADDRESSES: Detailed information concerning this notice, including the environmental analysis, is available for review at the Bureau of Land Management's Coos Bay District Office, 1300 Airport Lane, North Bend, OR 97459-2000.

DATES: On or before June 26, 1995, interested parties may submit comments to the Coos Bay District Manager at the above address. Objections will be evaluated by the District Manager Director who may sustain, vacate or modify this action. In the absence of any objection, this action will become the final determination of the Bureau of Land Management.

FOR FURTHER INFORMATION CONTACT: Steve Fowler, Coos Bay District Office, (503) 756-0100.

Dated: May 18, 1995.

Cary Osterhaus,
Acting District Manager.

Proposed Reinstatement of Terminated Oil and Gas Lease

May 17, 1995.

Pursuant to the provisions of 30 U.S.C. 188(d) and (e), and 43 CFR 3108.2-3(a) and (b)(1), a petition for reinstatement of oil and gas lease WYW130331 for lands in Weston County, Wyoming, was timely filed and was accompanied by all the required rentals accruing from the date of termination.

The lessee has agreed to the amended lease terms for rentals and royalties at rates of \$5.00 per acre, or fraction thereof, per year and 16 $\frac{2}{3}$ percent, respectively.

The lessee has paid the required \$500 administrative fee and \$125 to reimburse the Department for the cost of this **Federal Register** notice. The lessee has met all the requirements for reinstatement of the lease as set out in Section 31 (d) and (e) of the Mineral Lands Leasing Act of 1920 (30 U.S.C. 188), and the Bureau of Land Management is proposing to reinstate lease WYW130331 effective September 1, 1994, subject to the original terms and conditions of the lease and the increased rental and royalty rates cited above.

Pamela J. Lewis,

Supervisory Land Law Examiner.

BILLING CODE 4310-GG-M

[UT-068-05-5700-11; UTU-71889]

Notice of Realty Action; Recreation and Public Purposes (R&PP) Act Classification for Conveyance (Patent) of Public Lands in Grand County, Utah

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Realty Action, UTU-71889, Recreation and Public Purposes (R&PP) Act Classification for Conveyance (Patent) of Public Lands in Grand County, Utah.

SUMMARY: Notice is given that the following public lands in Grand County, Utah have been examined and found suitable for classification for conveyance (patent) to the Grand County Solid Waste Management Special Service District No. 1 (District) under the provisions of the Recreation and Public Purposes Act, as amended and supplemented (43 U.S.C. 869 *et seq.*). The District proposes to use the lands for a regional sanitary landfill site.

Salt Lake Meridian, Utah

T. 23 S., R. 19 E.

Sec. 14, S $\frac{1}{2}$ NW $\frac{1}{4}$.

The above described land aggregates 80.00 acres more or less.

The lands are not needed for Federal purposes. Conveyance is consistent with current BLM land use planning and would be in the public interest.

A plan amendment was completed on March 10, 1995 that made these public lands available for disposal under the Recreation and Public Purposes Act for a regional sanitary landfill site.

The patent, when issued, will be subject to the following terms, conditions and reservations:

1. Provisions of the Recreation and Public Purposes Act and to all applicable regulations of the Secretary of the Interior.

2. The provision that the patentee shall comply with all Federal and State laws applicable to the disposal, placement, or release of hazardous substances.

3. A right-of-way will be reserved for ditches and canals constructed by the authority of the United States (Act of August 30, 1890, 26 Stat. 391; 43 U.S.C. 945).

4. All minerals, including oil and gas, shall be reserved to the United States, together with the right to prospect for, mine and remove the minerals.

5. The conveyance of the land will be subject to all valid existing rights, reservations, and privileges of record. Existing rights, reservations, and privileges of record include, but are not limited to:

a. Oil and gas lease UTU-66023.

b. Any other reservations the Authorized Officer determines appropriate to ensure public access and proper management of Federal lands and interests therein.

6. The Grand County Solid Waste Management Special Service District No. 1, its successors or assigns, assumes all liability for and shall defend, indemnify, and save harmless the United States and its officers, agents, representatives, and employees (hereinafter referred to in this clause as the United States), from all claims, loss, damage, actions, causes of action, expense, and liability (hereinafter referred to in this clause as claims) resulting from, brought for, or on account of, any personal injury, threat of personal injury, or property damage received or sustained by any person or persons (including the patentee's employees) or property growing out of, occurring, or attributable directly or indirectly, to the disposal of solid waste on, or the release of hazardous substances from the land described above, regardless of whether such claims shall be attributable to: (1) the concurrent, contributory, or partial fault, failure, or negligence of the United States, or (2) the sole fault, failure, or negligence of the United States.

7. Provided, that the title shall revert to the United States upon a finding, after notice and opportunity for a hearing, that the patentee has not substantially developed the lands in accordance with the approved plan of development on or before the date five years after the date of conveyance. No portion of the land shall under any circumstance revert to the United States if any such portion has been used for solid waste disposal or for any other purpose which may result in the disposal, placement, or release of any hazardous substance.

8. If, at any time, the patentee transfers to another party ownership of any portion of the land not used for the purpose(s) specified in the application and approved plan of development, the patentee shall pay the Bureau of Land Management the fair market value, as determined by the authorized officer, of the transferred portion as of the date of transfer, including the value of any improvements thereon.

9. The above described land has been conveyed for utilization as a regional sanitary landfill. Upon closure, the site

may contain small quantities of commercial and household hazardous waste as determined in the Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. 6901), and defined in 40 CFR 261.4 and 261.5. Although there is no indication these materials pose any significant risk to human health or the environment, future land uses should be limited to those which do not penetrate the liner or final cover of the landfill unless excavation is conducted subject to applicable State and Federal requirements.

Publication of this notice in the **Federal Register** constitutes notice to the grazing permittee, Dan Jorgensen, that his grazing lease is directly effected by this action. Specifically, the subject lands are presently used for livestock grazing, involving the Big Flat-Ten Mile Cattle Allotment. Mr. Jorgensen (Grazing Record # 436318-cattle) holds the grazing privileges for the 80.00 acre parcel. The estimated permitted grazing capacity of these lands is 5 AUMs, however, there would be no reduction in the permittee's grazing preference as a result of this action. The land (acreage) will have to be excluded from the allotment effective upon issuance of the patent. There are no authorized range improvements on the subject lands.

Upon publication of this notice in the **Federal Register**, the lands will be segregated from all other forms of appropriation under the public land laws, including the general mining laws, except for conveyance under the Recreation and Public Purposes Act and leasing under the mineral leasing laws.

DATES: On or before July 10, 1995, interested persons may submit comments regarding the proposed conveyance or classification of the lands to the Moab District Manager, Bureau of Land Management, 82 East Dogwood Drive, Suite M, Moab, Utah 84532.

CLASSIFICATION COMMENTS: Interested parties may submit comments involving the suitability of the land for a regional sanitary landfill. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with State and Federal programs.

APPLICATION COMMENTS: Interested parties may submit comments regarding the specific use proposed in the application and plan of development, whether the BLM followed proper administrative procedures in reaching the decision, or any other factor not
